## THREE H ANNOUNCES INVESTMENT IN INNOVATION CENTRE

July 25, 2013

Three H Office Furniture Systems is pleased to announce that it has made a commitment for an investment in iCamp - the Innovation Centre for Advanced Manufacturing and Production at Canadore College.

In addition to providing the office furniture for the facility, Roy Dittmann, President of Three H, will be joining the board of directors of iCamp.

iCamp provides technology and resources for the development of new products and processes, product material testing, and the development and commercialization of prototypes.

The iCamp campus will provide a 'living lab' for design, prototyping and testing using such tools and techniques as 3D imaging, machining and simulation.

The investment and participation in iCamp is yet another means to keep Three H at the forefront of innovative and technological breakthroughs.

"We are very excited about our participation in iCamp. Not only does it provide an important link between a valuable research centre and the business community, it allows companies like Three H to achieve advances in our product and processes to ensure our future in a highly competitive marketplace. The result is not only success for the company but also for the community that depends on it for jobs and growth", says Roy Dittmann.
