

Hubub Tables

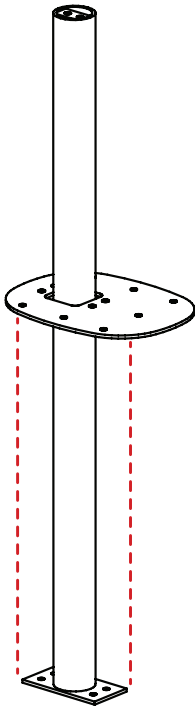

INSTRUCTIONS

General Installation

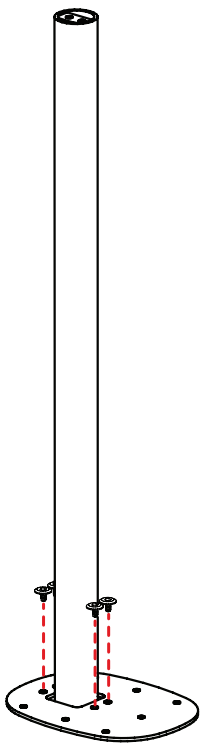

three h

1

Lower the oval top plate down to the bottom of the large main post.

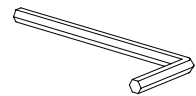

2

Loosely thread in 4 M6x16mm screws from the top plate to main post flange. Tighten screws equally with supplied allen wrench.

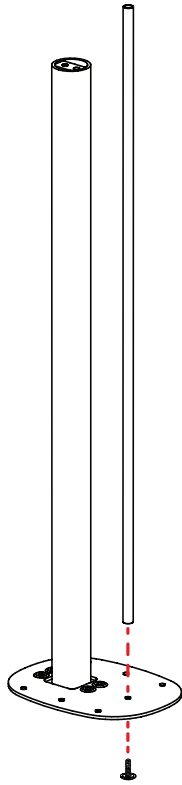

M6 x 16mm
Qty: 4

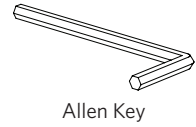

Allen Key

3

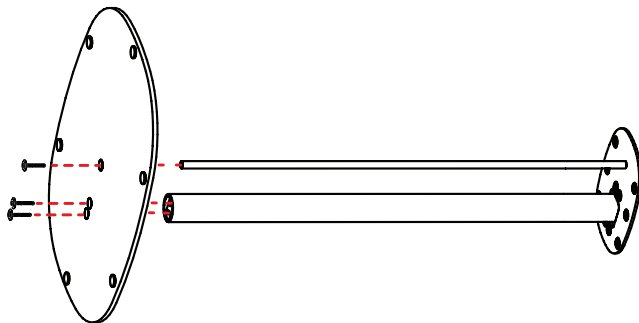

Align the small front post to the middle hole and thread in one M6x16mm screw from the bottom of the plate.

Tighten screw with provided allen wrench.

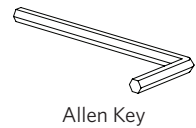

4

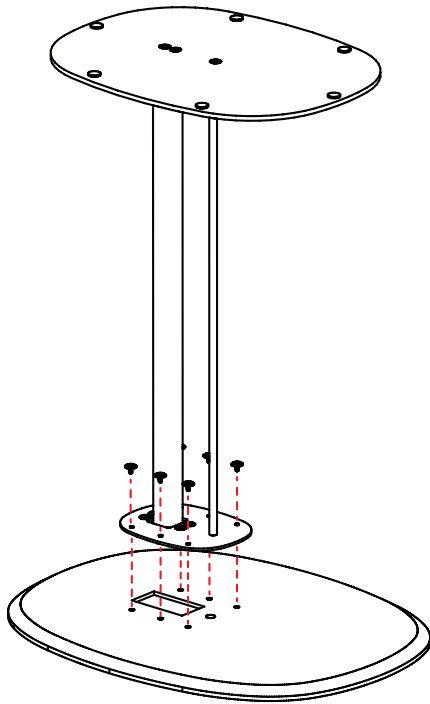

Attach the base to the posts using 3 M6x25mm screws.

With the Base and Posts lying on their sides, thread the screws into the proper holes.

Tighten each screw equally.

5

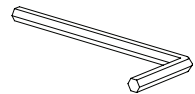

Place the work surface on a clean, soft surface.

Ensure the Main Post is closer to the back of the work surface.

Set post assembly in place and loosely thread in all 6 M6x16mm screws.
Fasten screws equally until all tight.

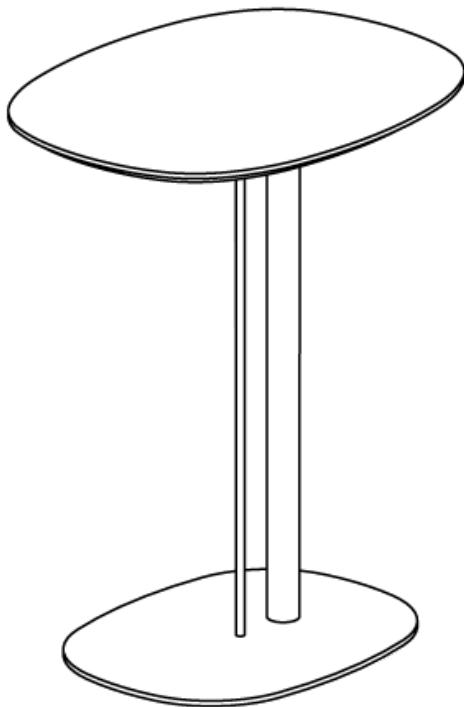

M6 x 16mm
Qty: 6

Allen Key

6

Flip the table upright, the felt glides should now be on the ground.
