

SideShare™ — *Ready for new Reception, Greet & Meet entrances, Conversation Hubs, Mudrooms and Community Rooms as they take on increased importance and value.*

(June 8, 2020: Chicago & Toronto) Today Three H launched SideShare™, on NeoConnect, a new approach for temporary greeting and meeting places.

The expanding jargon for spaces where people can be welcomed and gather, and still follow safer social distancing protocols, is expanding rapidly.

That's because there is a need for this space that welcomes guests, provides area for meeting and events, and, also, places for staff to gather for social interaction. "Greet & Meet", "Conversation Hubs", "Mudrooms" and "Community Rooms" being the most common and current terminology. And each area could double as multi-function spaces for events; or transform from a coffee counter to serve as a workstation. Flexibility to allow for team collaboration and creative work.

Image 1. SideShare for temporary visitors, presentation set-up and meeting in larger spaces. Near the entry way reduces the number of visitors moving through the office floor plan. Employees come to SideShare area to greet and meet with guests.

Image 2 . SideShare as welcome desk used by a receptionist at an appropriate distance from entering guest. Strictly non-transactional situations.

Not shown is SideShare in 'mudrooms' for employee use only. Gathering places may include lockers and seating. SideShare is not a gathering 'parson-type' table. It is purposefully designed to only accommodate one temporary, touch-down, seated person per 6 foot area. Connected lower storage acts as a natural distancing tool as well as functional cabinetry for reducing clutter and need to clean objects.

The new Thinscape™ tops by Wilsonart are being introduced on surfaces. This new ultra-thin, marble and stone-like product is a durable nonporous composite material that is resistant to stains and impervious to moisture. It is impact, abrasion and scratch resistant. Perfect for high-use areas.

Continued on page 2...

Thinscape has received Greenguard Gold Certification, meeting strict chemical emission limits, as does all Three H products through SCS Indoor Advantage Gold, Indoor Air Quality Certification.

SideShare provides low maintenance surfaces and laminates while delivering affordable luxury with exceptional performance.

SideShare is designed by Alin Copil. Profile photo attached.

About Three H Office Furniture

Built on a tradition of European craftsmanship combined with innovative technology, Three H has been crafting office furniture that bridges the gap between custom and mass for more than 40 years. Three H's unique design process gives clients the advantage of a tailored solution, but without the delays and high costs typically associated with going custom.
